

SB 910 Update

May 2003

**California's Strategic Plan
for an Aging Population**

The Task Team Has Been Busy

- The Stakeholder Task Team has been meeting since December 2002
- Also held two briefings with *CA Policy Research Center* on Demographics and Data Base Development
- Topic experts join each meeting related to their area of expertise
- Each meeting results in a vision, plus policy and action recommendations
- Plan structure has been developed - draft

Draft Plan Structure

I. Executive Summary

II. Introduction and Background

- A. Demographics and Trends
- B. Overarching Themes
- C. Cross Cutting Issues

III. Vision, Policy and Action Recommendations

Categories: Economic Security, Work, Civic Involvement, Healthy Aging, Housing, Transportation, Health Care (3), Infrastructure

VI. In Conclusion - Priorities and Timelines

- A. Plan Priorities
- B. Integration and Accountability
- C. The next eight years
- D. Plan Update - Frequency and Process

Appendices

Section III (*detail*) - Vision, Policy and Action Recommendations

- Background, trends, projections on the specific category - For example: Healthy Aging
- Vision for 2020 - Our positive lifestyle choices and habits in 2020, with what result.
- Topic broken into subsets: Nutrition, Fitness, Socialization, Education, Prevention
- Policy and action recommendations for each subset
- For each recommendation: Priority Level, plus suggested responsibility, timeline, milestones

What We've Accomplished

- A draft Vision for the year 2020
 - The vision addresses the essential components of economic security for an aging population:
 - Financial Planning
 - Social Security
 - Pension and Savings
 - Work
 - Health Coverage

What We've Accomplished

- The vision also addresses:
 - The key components of healthy aging - regular nutritious meals, physical activity, social engagement, regular health care
 - Civic engagement and volunteering
 - Education and life-long learning
 - Transportation and transp-based community planning
 - Affordable, universally designed and/or modified housing for all geographical areas and all levels of needs
 - Competent, adequate, accessible health, dental and mental healthcare for all seniors, including prevention and screening.
 - Aging in place and long term care

What We've Accomplished

● 151 Policy and Action Recommendations to Date

- 11 Economic Security
- 13 Work and Job Training
- 7 Civic Involvement, Life Long Learning
- 11 Healthy Aging
- 47 Housing
- 33 Transportation
- 29 Health Part 1 - Health & Dental Health

What's Next ?

- Policy and action recommendations for three more topic categories:
 - Health Part 2 - Mental Health, Alzheimer's & Related, Alcoholism and Chemical Dependency
 - Health Part 3 - Long Term Care, Family Caregivers, Residential Facilities, referencing the California Olmstead Plan
 - Infrastructure -
 - Data Systems
 - Technology
 - Provider Workforce
 - Higher Education
 - Hospitals & Clinics

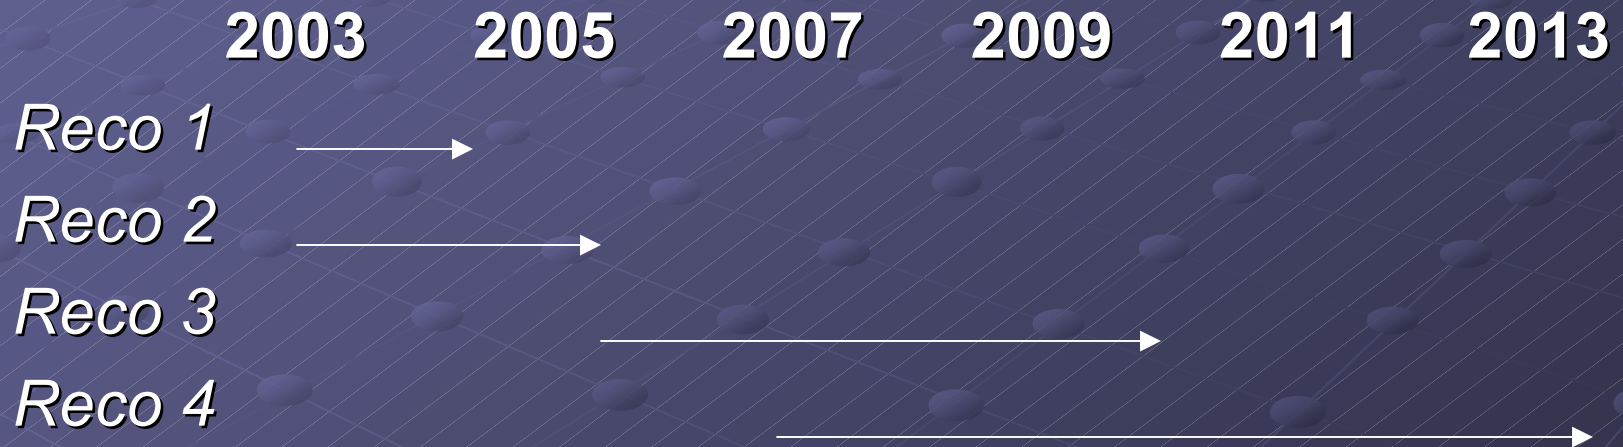

And Then...

- **Team Retreat to:**

- **Review and refine all recommendations, apply cross cutting criteria:**
 - Economic and Educational Status
 - Social Supports - Family Networks vs. Living Alone
 - Health Status - Robust Health vs. Health Issues
 - Geography - Urban, Suburban and Rural
 - Cultural Competence, Ethnicity and Language
 - Gender
- **Suggest priorities**

● Team Retreat - *continued*

- Suggest Sector Responsibility
 - Public, Private, Non-Profit
- Suggest Timeframe

Then...

● Public Forum/ Hearings

Plan Deadline

- Due to Legislature October 1, 2003

A Sense of Urgency....

The clock is ticking

- In 2002 California had 3.6 million people over 65 years of age
- In 2010 4.3 million
- In 2020 6.1 million
- In 2050, more than 11 million
